

With Duplex Corona Unit

Digi Multi Coater Express 30 with Duplex Corona Treatment Unit

UV/ Water-based Varnish & Primer Coater for HP Indigo 10000 / 12000 Digital Press

HP Indigo 10000

HP Indigo 12000

Digi Multi Coater Express 30 is Coater which is three in one system for Primer Coating as pre-processing before printing and UV/Water-based Varnish Coating after printing. Corona Treatment Unit

Digi Multi Coater Express 30 is especially designed for HP Indigo 10000/12000 Digital Press and compatible with most offset, digital press, ink jet and photo based prints. The design of Digi Multi Coater allows for simple and automatic operation from start to finish and can do the duplex coating process in once by independent two coating units. The duplex coating makes it possible to improve the efficiency of coating process and productivity much higher. Digi Multi Coater Express 30 working with HP Indigo 10000/12000 Digital Press is the most effective system for primer coating before printing and UV, water-based liquid coating after printing.

Specification

Coating Technology:	Sheet Fed Flood Coating for UV / Water-based Varnish & Primer IR Heater & UV Cure System	Corona Treatment:	Duplex	Feeder stacking height:	850mm
	Duplex Coating	Paper Thickness:	70 - 600gsm (uncoated) 90 - 600gsm (coated)	Stacker stacking height:	850mm
Coating Thickness:	6~14 Microns		*Paper thickness may not be applicable subject to the media material.	Power Supply:	200V~415V, 50/60Hz Three Phase
Coating Paper Size:	Max. 750mm x 585mm (HP Indigo 10000/12000 : 530mm x 750mm)	Coating Speed:	Max. 50meter/min. for UV Coating Max. 50meter/min. for Primer Coating	Power Consumption:	54 KW
Coating Width:	Max. 762mm		*Speed is variable depending on the paper thickness, media and/or varnish.	Dimensions:	L4.90m x W1.40m x H1.80m
				Weight: Coater unit + Stacker/Feeder unit:	Approx. 4500kg

*The specification may be changed without notice.
